MONGATECO

# Monmouthshire Gate Company are a premium installer of La Toulousaine Aluminium gates in the UK.

With over 60 years of experience of designing and manufacturing aluminium gates, La Toulousaine are experts at developing and producing aluminium gates which are now sold in various countries. This is demonstrated in the quality and finish of the product and supported with a 25 year guarantee.

## WHY CHOOSE OUR ALUMINIUM GATES?

- Reliable and robust, the patented Meca Clav technology ensures the gate remains rigid in all weather conditions
- With over 60 years manufacturing experience, gates are finished using AkzoNobel which is the world leader in powder colour coatings
- Manufactured with Qualmarine quality aluminium and protected with the Qualicoat guarantee ensures the gates meet the highest European standards for aluminium gates
- Over 500 stylish, contemporary and classic designs to choose from
- Over 100 powder coating colours available with different textured finishes
- Compatible with all gate automation and access control systems
- All gates are fully customisable, made to order
- Guaranteed against colour discolouration
- Ease of installation- Invisible gear rack supplied for automated sliding gates. Welded plates supplied for underground automated swing gates
- Available as Sliding gates, Swing gates, Cantilever gates and fence panels

## ACCORD RANGE

The Accord range's modern design with clean lines, straight angles and customisable options is highly appealing. It provides privacy and security through wide slats with grooves at intervals of 150mm or 250mm. With 16 designs and various colors, you can create your perfect gate. **Page 4**

## ARPEGGIO RANGE

The classic model blends straight lines with timeless curves, featuring solid and spaced slats on each leaf. Each gate combines a solid section with a customisable part to enhance outdoor aesthetics. Panel design choices encompass laser-cutting, engraving, stamped sheets, geometric patterns, personalised elements like house numbers, and dual-tone colors. **Page 6**

## CREATION RANGE

Openwork filling, solid or personalised, this ventilated line has a contemporary design that gives bold character to your outdoor space. If personalisation is your thing, putting the creativity into your gate designs is simple with the Creation Range, which has perforated or solid sheets that can be personalised, embossed or engraved with a variety of patterns, horizontal or vertical openings. **Page 8**

## DISCRETION RANGE

The Discretion series provides the perfect balance of serenity and security, for ultimate style and peace of mind. Choose from models with solid plates, the louvered slats provide a windbreak and privacy screen so that you can relax and enjoy your outdoor space in style and comfort. **Page 10**

## HARMONY RANGE

A truly timeless design, with its micro-perforated top and solid base, the Harmony range strikes a balance between providing you with a feeling of privacy, whilst offering visibility to the outside for a feeling of openness. Customisable, the solid base can be designed with vertical, horizontal or diagonal slats. **Page 12**

## HORIZON RANGE

Fusing the contemporary with classic elegance, the Horizon range includes a series of models with a completely open gate design, featuring horizontal or vertical slats of tubes. If you're looking to boost your home's security and privacy, but not block your view of the outside, the Horizon is the perfect choice. **Page 14**

## INTIMACY RANGE

Blending modern styling with intimate design, the Intimacy range provides complete privacy for your home and outdoor spaces. With a fully clad design, security and privacy is offered without compromising on curb appeal. **Page 16**

## MELODY RANGE

For a blend of artistic flair and timeless elegance, the straight-framed Melody range offers a bold yet refined aesthetic. It features diverse textures, filled sections, and patterns, including choices like walnut or aged pine wood, dual-tone colors, laser cuts, engraving, aluminum décor, perforation, and embossment. **Page 18**
